Dear Hackle Team,

I want to personally thank each of you for your continued loyalty and support during these extremely uncertain times. Hackle have been working very hard to make the right decisions under these unprecedented circumstances, and we hope that we have got this right so far.

I want to assure you all that Hackle are adhering to all appropriate health and hygiene standards at all of our sites in line with the guidance given by the Government, and are ensuring that Hackle staff are only reporting for work if they feel fit and healthy.

Hackle know that the coming days and weeks will be filled with uncertainty, and we want to support you and your families as well as we can.

Terri, Chris, Martin, Steve and Suleman, are all available to answer any concerns you may have, and we would ask that you check the government guidelines regularly to ensure that you and family remain safe and healthy.

Hackle would not be able to function without your hard work and dedication. You are being asked to come to work every day whilst so many others are staying at home, so I thank you again for all you are doing. Your commitment to Hackle is very much appreciated.

Kind Regards

Mark Mathurin
Managing Director
